

QUALITY ID	MEASURE NAME	MEASURE DESCRIPTION	PERFORMANCE MET CODES	EXCLUSION CODES	PERFORMANCE NOT MET CODES	NQS DOMAIN	MEASURE TYPE	HIGH PRIORITY MEASURE	DATA SUBMISSION METHOD
259	Rate of Endovascular Aneurysm Repair (EVAR) of Small or Moderate Non-Ruptured Infrarenal Abdominal Aortic Aneurysms (AAA) without Major Complications (Discharged to Home by Post Operative Day #2)	Percent of patients undergoing endovascular repair of small or moderate non-ruptured infrarenal abdominal aortic aneurysms (AAA) that do not experience a major complication (discharged to home no later than post-operative day #2)	G8826 - Patient discharged to home no later than post-operative day #2 following EVAR	N/A	G8833 - Patient not discharged to home by post-operative day #2 following EVAR	Patient Safety	Outcome	Yes	Registry
265	Biopsy Follow-Up	Percentage of new patients whose biopsy results have been reviewed and communicated to the primary care/referring physician and patient by the performing physician	G8883 - Biopsy results reviewed, communicated, tracked, and documented	G8884 - Clinician documented reason that patient's biopsy results were not reviewed, [e.g., patient asks that biopsy results not be communicated to the primary care/referring physician, patient does not have a primary care/referring physician or is a self-referred patient]	G8885 - Biopsy results not reviewed, communicated, tracked, or documented	Communication and Care Coordination	Process	Yes	Registry
344	Rate of Carotid Artery Stenting (CAS) for Asymptomatic Patients, Without Major Complications (Discharged to Home by Post-Operative Day #2)	Percent of asymptomatic patients undergoing CAS who are discharged to home no later than post-operative day #2	G9255 - Documentation of patient discharged to home no later than post-operative day 2 following CAS	N/A	G9254 - Documentation of patient discharged to home later than post-operative day 2 following CAS	Effective Clinical Care	Outcome	Yes	Registry
345	Rate of Postoperative Stroke or Death in Asymptomatic Patients Undergoing Carotid Artery Stenting (CAS)	Percent of asymptomatic patients undergoing CAS who experience stroke or death following surgery while in the hospital INVERSE MEASURE - A lower calculated performance rate for this measure indicates better clinical care or control.	G9257 - Documentation of patient stroke following CAS OR G9256 - Documentation of patient death following CAS	N/A	G9259 - Documentation of patient survival and absence of stroke following CAS	Effective Clinical Care	Outcome	Yes	Registry
